CAD is Stand for Continued Academic Development

“In order to establish and implement the Continuous Academic Development project in the universities and colleges, the Scientific Committees of these institutes will lay down a robust programme in February for the academic year 2017-2018. The faculties will implement this programme and it will be monitored and observed by the Scientific Committee.

Each university faculty and teaching staff should lay down a programme periodically for the academic seminars. And at the start of the first term, they must publish a list of seminars with the titles at the university and the faculties and on their websites. In order to encourage exchange visits, seminar presentations and networking among academics of different institutes in the Kurdistan Region, the schedule of the seminars must be published among the corresponding faculties”

Teaching

At the College of Science (BIO) I am teaching the following;

1. Tumor Biology (BIO24106)
2. Plant Group(BIO23205)
3. Cell Biology Practical (BIO22201)
4. Zoology Practical (BIO21200)
5. Invertebrates Practical (BIO22203)

My Philosophy in Teaching:

I believe that all students are unique and have something special that they can bring to their own learning. I will assist my students to express themselves and accept themselves for who they are, as well embrace the differences of others.

Every classroom has their own unique community, my role as an assistant lecturer will be to assist each student in developing their own potential and learning styles.

I will present a curriculum that will incorporate each different learning style, as well as make the content relevant to the students' lives. I will incorporate hands-on learning, cooperative learning, projects, themes, and individual work that engage and activate

Academic Activities

My Academic Activities are;

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
