# Socrative

Engage your students with Socrative, a powerful tool that allows educators to create interactive quizzes, polls, and assessments. With Socrative, you can understand your students' needs and help them succeed!

# What is Socrative?

## Powerful Tool

Socrative is an online platform that helps lecturers engage and assess their students in real-time.

## Interactive Features

Socrative offers a variety of interactive features including quizzes, polls, exit tickets, and games.

## Seamless Integration

Socrative integrates with Google Classroom, allowing teachers to use Socrative alongside their existing tools.

## User-Friendly

Socrative is easy to set up and use, so you can start engaging your students in minutes.

# Features and Benefits

## Customized Content

Educators can create custom quizzes and activities aligning with their syllabus, ensuring students receive relevant and meaningful content.

1

## Real-Time Feedback

Socrative provides instant feedback, giving lecturers insight into how their students are performing.

2

3

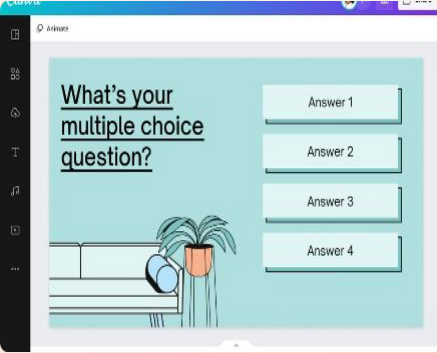

## Data-Driven Learning

Socrative's reports and analytics help teachers identify areas where their students need extra support, allowing for personalized learning experiences.

# How to Use Socrative?

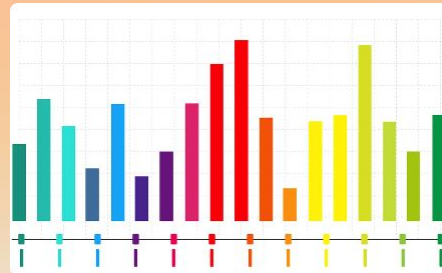

## Create & Share

Create quizzes and share them with your students via unique codes or Google Classroom.

## Engage & Assess

Engage your students in real-time and assess their understanding of the material through various question types.

## Analyze & Adjust

Analyze your students' results, adjust your teaching to their needs, and maximize their learning outcomes.

# Real-World Examples

## Flipped Classroom

Use Socrative to create pre-class quizzes and activities, freeing up class time for discussion and exploration.

## Note-Taking

Engage students in real-time collaborative note-taking, allowing for a deeper understanding of the material.

## In-Class Assessments

Assess your students' understanding of the material in real-time, allowing you to adjust your teaching to their needs.

# Tips and Best Practices

1

## Start Simple

Start with simple quizzes and polls that align with your syllabus, and build from there.

2

## Engage the Class

Use Socrative to encourage student interaction, participation, and collaboration.

3

## Personalize Learning

Use Socrative's reports and analytics to identify areas where your students need extra support, and adjust your teaching to their needs.

# Q & A Session

## Ask Questions

Use Socrative to ask open-ended questions and encourage student participation.

## Get Feedback

Use Socrative to get feedback on your teaching, and adjust your approach to better meet your students' needs.

# Socrative for ChromeOS, iOS, and Android

## Socrative Teacher

## Socrative Student

# Available on all Platforms

Socrative apps are available for download on all major digital devices and platforms. You can use Socrative on smartphones, tablets, laptops, and computers.

**From mobile phones to iPads to Chromebooks, Socrative works on nearly every device.**

# Create Personalized Activities

From quizzes to polls, create whatever type of activity suits your needs. Shuffle questions, run your activity anonymously, and provide instant feedback...it's up to you!

# More Time for Teaching

- Socratic quizzes are easy to create and download. Create your own and use them as many times as you need.
- Since they are graded automatically in real-time, you'll spend less time grading assignments and more time catering to the needs of your group.
