

The Requirements of publication and Academic Profile

Mr. Alaa Salam Jameel

Public Administration Department

Cihan University- Erbil

Introduction

Academic staff should be familiar with what are the requirements of the university, Quality assurance and national university ranking. Likewise, necessary for academic staff to continuous updating their Teacher Academic Profile (TAP).

criteria of publication considered one of the essential element at universities nowadays and the academics staff need to know the requirements of publication at the university and this possible by QA website and representatives of QA at the department

Where to publish your paper?

- Journals with Scopus index except Q4.
- avoid publishing with the journals which is in the list of **NUR Blacklist**
- Check List of Approved/non-approved Scientific Journals in Kurdistan Region Universities (Revised version-January 2020).
- Don't publish with journals without Metadata.

NUR Blacklist

NUR Black List

Predatory publishing, sometimes called write-only publishing or deceptive publishing, is an exploitative academic publishing business model that involves charging publication fees to authors without checking articles for quality and legitimacy and without providing the other editorial and publishing services that legitimate academic journals provide, whether open access or not.

Predatory journals accept papers (and collect publication fees) regardless of quality, and whether it is an open access or closed access. There is no concert list for the predatory journal and NUR is updating the predatory journals list whenever there is an update.

In addition to the Predatory and Hijacked journals lists, NUR is listing any journal or publisher that giving fake information or publishing non peer-reviewed research articles. The objective is to do not let the academics and researchers in the Kurdistan Region Universities publishing in these listed journals/publishers that waste there scientific works and affect the University scientific reputation.

Eduindex Publisher ([Click here](#)), includes the following journals, where most of them are SCOPUS indexed-journals:

1. Restaurant Business ([click here](#))
2. GIS Business ([click here](#))
3. IJSS
4. EJBSS
5. JSMaP
6. JIR
7. AKSAR

Justification:

1. Fake publisher address.
2. Non peer-reviewed publications.
3. No authors' affiliation in the metadata.
4. Conflict in metadata.
5. Asking authors for fee in spite of no archiving policy.

Metadata

The information that makes your article discoverable is called metadata; that is, information flagged electronically as having some particular function – title, keyword, abstract, author, **affiliation** etc. It is the metadata that tells search engines what your article is about. And it is the metadata that helps search engines decide what to display in response to a reader's search query.

A Review on Distributed Management Systems Using Blockchain

 Ashik Khaleel, Kiran K Nair and N. Praveen

Abstract

In most organizations, cloud services are used to implement an online management system when there are a lot of entities involved. Blockchain is a new technology that is currently being implemented onto various systems. Management systems can be engineered with blockchain at its backend that could solve a lot of the problems and risks that are associated with a cloud-based system. Blockchain has a copy of a ledger that is distributed to all of its participating nodes. The data on the ledger is immutable, transparent and hence secure. The data is transparently available for anyone to view but only editable by those who have privileged access. This secures the data from external threats and allows easy management. With this paper, we survey the existing systems and propose a better management system that overcomes the shortcomings of the current cloud-based systems.

The moderating effect of psychological factors on consumer of electric and hybrid vehicles' response purchase decisions

Pages: 1649-1658

1.  [Arwa Hisham Rahahleh, Monira Abdallah Moflih, Zaid Ahmad Alabaddi and Sanaa Nawaf AL-Nsour](#)  PDF (288 K)

Abstract: This research provides an analysis and evaluation of consumer purchasing behavior using green electronic marketing of vehicles diversification into new markets, focusing on Electrical Vehicles (Ev) and Hybrid Vehicles (Hv). The world has been making remarkable efforts to make everything green and cleaner by the help of the advanced technology, including transportation. The technology especially the E marketing, social media, etc. focuses on orienting people to believe that hybrid and electrical vehicles generate less pollution, will save money and reduce dependence on natural sources of fuel. This research aims to inspect the relationship between Stimuli Factors, Electrical Vehicles' (Ev) and Hybrid Vehicles' (Hv) Consumers and Response Purchase Decisions (S-O-R), in addition to inspect the moderation effects of Psychological Inputs on S-O-R relationship in Vehicle industry of Jordan. The current research used quantitative method to gather accessible data from the sample of the study. Variables used in this study include HVs & EVs consumers, Stimuli factors (marketing inputs, external environment) and positive psychological inputs and response purchase decisions. Partial Least Squares (PLS) approach as a statistical method was used to analyze the data. Results indicate that all the relations had a positive significant, except the interactional relationship between Stimuli factors which includes marketing inputs, external environment, and positive psychological inputs, affect response purchase decisions. In other words, the mediation (HV's & EV's consumers) shows valuable change for the prediction of response purchase decisions while, moderated effect of psychological inputs did not make change.

ORCID

- ORCID : is a alphanumeric code to uniquely identify scientific and other academic authors and contributors

The logo for ORCID, featuring the word "ORCID" in a sans-serif font. The letters "ORCID" are in a light gray color, while the letters "id" are in a bright green color. The letter "i" has a small green dot above it.

Update Your TAP

- Academics staff need continuous updating their TAP, such as courses teaching, syllabus, etc.
- DON'T copy and Paste in TAP template.
- Need to attach your google scholar, ORCID as a hyperlink.
- Update your CV in your TAP

THANK YOU
